

# Bug The Bugs That Bug You!™

***Introducing the newest technology in personal bug protection***

Finally there's a new technology that keeps pesky mosquitoes, no-see-ums, gnats and other bothersome insects away. It combines transdermal technology with a special water soluble B1 vitamin formula that bugs don't like. Just one patch provides 48 hours of continuous insect protection while eliminating harsh chemicals, messy sprays or smelly lotions. This clear patch is simple yet

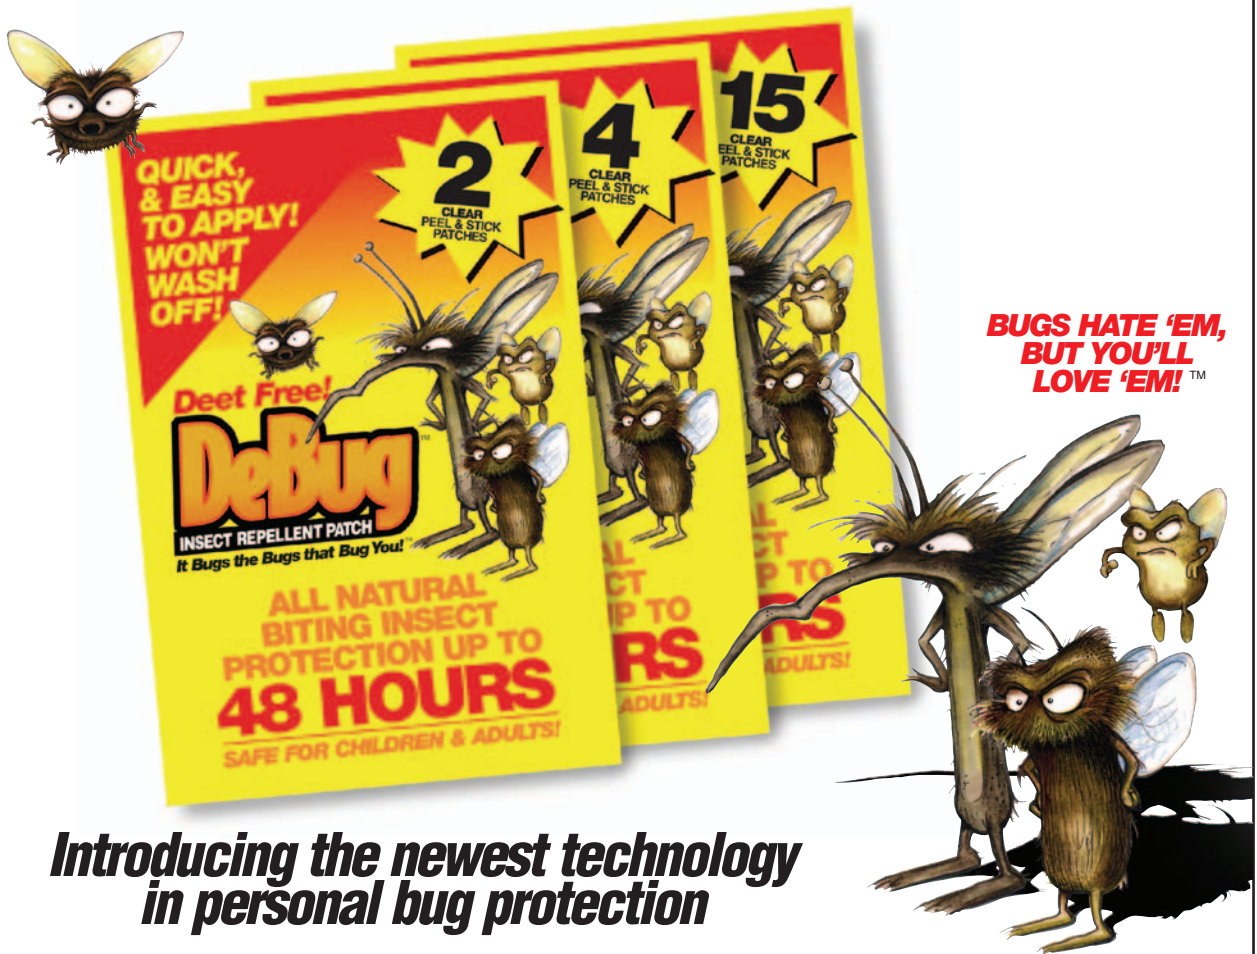

effective and applies in seconds. Best of all, they are all-natural and DEET free, so they're safe for children and adults. They won't wash off in water or perspiration, plus, they are virtually undetectable beneath clothing and convenient to take with you anytime, anywhere. So don't let bugs bug you, DeBug™ yourself today!
